

Valerie Lopez

Hello, my name is Valerie Lopez I am 14 years old. This is my first year apart of the Summer Youth Program working for information technology and security here at Carson City hall. I grew up here in Carson California my whole life and so did my family of course.

About Me

I am a freshmen entering carson high school. I plan after highschool to eventually become a ultrasound technician or pediatrician. I hope to learn new skills that I could use in the future and plan to give this program my all. I plan to hopefully go to UCLA one day.

Projects

- My program in middle school required me to take something called Project Based Learning
- We called it PBL for short I did this for 3 years about 5 times
- PBL helped challenge students to real life problem solving skills for a specific cause and what could we do to help

Skills

- A skill I have is good communication skills with large groups or small groups
- I work well with others so I have good teamwork skills and know how to work as a group no matter who I work with
